November 8, 2012

Ben Huckstep  
Project Engineer  
Gaylor Electric  
17225 Kraft Court  
Noblesville, IN 46060

Ben Huckstep:

First and foremost I would like to extend my thanks and gratitude for the job all team members from Gaylor has done to this point in our project. I would like to take the next few lines to express my support and appreciation for your Gaylor Team. The Gaylor Leadership Team works diligently to only keep the highest quality and finest players on their team. Lebanon Community School Corporation is very thankful and appreciative to have them as part of the large team working on a 35 million dollar multiple projects contract which began in 2011 and is scheduled to finish in 2013. Prior to the start of this project they demonstrated a genuine level of cooperation, understanding and support for gathering data and the needs of the corporation in order for them to start and complete a successful job. The approach taken certainly proves Gaylor is owner centered, goal oriented and community supportive.

Making a schedule work when you are renovating an occupied building and having to work around curricular, co-curricular and extra- curricular schedules are not easy tasks but one which has been accomplished with outstanding results. The cooperation between Gaylor, the Design Builder, our building administration, teachers and students has been and continues to be outstanding. The delivery of the renovation program has been professional in every manner, the team members respectful, the craftsmanship first class and minimal changes have had to take place. The renovation of a 50 year old building offers just about every challenge possible. The many obstacles which have occurred have been handled quickly and without interruption to a very challenging and tight time line.

I personally am on the job site routinely and interact with many of the professionals/team members and find them to take time from their duties to answer questions, attend meetings with myself and my staff and are always enthusiastic about finding solutions to concerns which have been generated. The local Superintendent from Gaylor has gone well beyond the call of duty in solving problems before they become problems and offering the school corporation only the best.

In my career I have worked with several builders, contractors and other professional trades and I would be hard pressed to find a team more dedicated to a project than the Gaylor Team. Gaylor has and will continue to deliver an outstanding product for us. It is without reservation or hesitation I would highly recommend the Gaylor organization to be present on any job or project.

With Sincere Thanks and Gratitude,

Bob J. Ross  
Executive Director of Operations  
Lebanon Community School Corporation
