Letter of Recommendation

RE: Gaylor Electric

To Whom it May Concern,

Kelley Construction and Gaylor Electric have worked together on 3 projects over the course of the past year. During which time Kelley Construction gained the utmost confidence in the abilities and capabilities of Gaylor Electric. Prior to the commencement of our first project, Kelley Construction and Gaylor Electric had little to no prior working relationship. Gaylor Electric was awarded their first project with Kelley Construction based on being the low bidder and our understanding of them being a reputable company.

Throughout the duration of our first project Gaylor impressed upon Kelley their extreme attention to detail and ability to meet project schedules in a safe and professional manner. This ultimately lead to the next two projects coming to terms on a negotiated bases as their were clear advantageous having Gaylor Electric as a partner on our projects.

Gaylor Electric has knowledgeable, competent and dedicated personnel from top to bottom in their corporation. These individuals whom were involved in my projects demonstrated the ability to communicate clearly and decisively on complex construction projects. As a Project Manager for the top General Contractor in Louisville, Ky and licensed to perform work in 49 states throughout the U.S. I have confidence that Gaylor Electric could be relied upon on any of my projects in the future.

Respectfully,
