

Letter of Recommendation: Thompson Thrift Construction

My name is Robert Thrift with Thompson Thrift Construction. I have observed your electricians on the job site for the past three days and wanted to report to you that I have been impressed with their overall performance. The working environment has not been ideal but they have consistently worked hard without complaint. Their work has progressed in a timely fashion producing a quality and professional product. This is unusual, but commendable among peers their age. If I may, I would like to request their presence throughout the remainder of the project.

Respectfully,

Robert Thrift, Field Superintendent
