

Parker Snyder
Project Manager
Etzel Engineer and Build
Saxonburg, PA 16056

February 2018

To Whom it may Concern:

Etzel subcontracted Gaylor Electric, Inc. to do the electrical installation and renovation of an existing data center for an Indianapolis client on a 9 month project completed in Dec. 2017.

Gaylor accomplished the job in a professional manner, completed the work on time and was generally an asset on the job. The foreman worked well with the other subcontractors.

I recommend Gaylor Electric for data center work which requires a high level of knowledge of complex electrical systems and an ability to work on strictly planned safetime events.

I am pleased to support my recommendation by phone or email upon request.

Kind Regards,
